Additional Requirements & Notices

Required purchase of *AASL National Standards* document upon admission to program:

**Deadline: May 15.** The courses School Library Management 1 (Summer session) and School Library Management II (Fall session) require as a textbook, *AASL National school library*
standards for learners, school librarians, and school libraries, published by the American Association of School Librarians and the American Library Association. The book retails for $199. If you are a member of ALA, the cost reduces to $99. By joining the Texas Library Association and the American Library Association as a student (about $45—a joint membership program), you get a significant savings for membership to the two organizations, as well as a significant savings for the standards book. There are many benefits to membership in these premier professional organizations. As soon as you are admitted into the program, you should join and order the book so that it arrives by June 1. Join ALA and TLA (joint student membership program). The National Standards publication is a required textbook for the two School Library Management courses; joining the two associations is not. However, you get a significant savings on the book by joining. Order the National Standards.

Educator Preparation Program hours required by TEA:

The Texas Education Agency requires that courses for a professional degree equal 200 clock hours. The four required courses for the School Librarian Certificate equal 172 hours. An additional 26 hours is required outside of the coursework. TEA requires that professional educator programs include instruction in educator code of ethics, standards, dyslexia, mental health, substance abuse, youth suicide, dyslexia, in addition to regular content. In addition to course sessions, be prepared to attend short online sessions throughout the long semesters. These will be announced at the beginning of each semester so that students can make arrangements to attend these required sessions.

All certificate seekers must attend 200 clock hours of instruction. No matter the reason, missed classes, tardies, and early exits must be made up. Students will have additional writing assignments to ensure that he or she has acquired the missed content. Students will be well advised to attend all classes, arrive on time and stay for the duration of the class.

Criminal History Evaluation Advanced Notice

School districts require criminal background clearance before anyone works in their schools. All students accepted into a certification program are required to complete a criminal history evaluation for the district in which they are placed. Criminal history evaluations may require completing district forms, online applications, and in some cases, fingerprinting.

It is important to know that even certain misdemeanors can prevent students from participating in the fieldwork required by their program. Furthermore, they can prevent the State from approving certification.

For general guidelines used in determining eligibility, please visit the Educator Investigations page on the Texas Education Agency’s (TEA) website. https://tea.texas.gov/index2.aspx?id=5816&menu_id=846&menu_id2=794
For questions about state eligibility, TEA can provide a preliminary criminal history evaluation (PCHE) for a non-refundable fee of $50. Use the following link to access the PCHE request form.

INF 388R Practicum Requirements and Scenarios

Practicum Prerequisites
Prior to enrolling in the SLC Practicum (INF 388R), certificate candidates must meet these prerequisites:

All non-teacher candidates (school librarian certificate) must complete 200 clock hours of coursework & training that is standards-based per 19 TAC 228.35(c). With few exceptions, candidates must complete the four required courses before placement in INF 388R (Practicum in School Libraries).

Successful completion of at least 12 credit hours from required courses, including the four school librarian courses:

- INF 387 School Library Management I: Literacy and Administration
- INF 382L Inquiry and Information Seeking in K-12 (may be substituted for another approved course)
- INF 387.06 School Library Management II: Teaching and Learning
- INF 382G Materials for Children and YA

Practicum requirements
Candidates seeking the School Librarian Certificate in the state of Texas are not eligible for Practicum waivers.

No summer practicums will be considered. No exceptions.

Each practicum candidate must complete 160 on-site clock hours for the practicum, 80 in a public elementary school library and 80 in a public middle or public high school library. The candidate will work with her/his/their Site Supervisors to develop a specific work schedule with hours indicated for the entire practicum duration. There are specific duties that the Educational Preparation Program will require, as well as those prescribed by the site supervisors. See the School Librarian Certificate Practicum Handbook for details. While the practicum candidate may conduct projects during the practicum hours, the hours cannot be replaced by an off-site project.

Practicum candidates seeking a Texas School Librarian Certificate are required to complete 160 clock hours on site to comply with the Texas State Board for Educator Certification
(SBEC) requirements. Practicum candidates who are not Librarians of Record (see below) must work in at least two different school library settings at different levels (80 hours in a public elementary school, and 80 hours in a public middle school or public high school. The practicum is usually completed in one semester. However, for candidates with teaching jobs or other commitments, candidates may choose to complete the practicum in two consecutive semesters (fall and spring, usually in that order) and will conduct their practicum in one site each semester. **Summer practicums will not be considered.**

The practicum candidate must be enrolled in the required practicum course with a certified school librarian employed by the iSchool serving as practicum Field Supervisor and certified school librarians serving as the Site Supervisors at the public elementary and secondary school.

In most cases, the Site Supervisor is the "Librarian of Record" at each approved site library. The Site Supervisor must take the required online Site Supervisor training prior to the arrival of the practicum candidate. The Site Supervisor will oversee the practicum candidate’s experience at their library and complete an Interim and Final Evaluation to assess the Practicum Candidate’s performance for INF 388R.

The Field Supervisor conducts at least three 45-minute TEA required observations (totaling a minimum of 135 minutes in duration) throughout the practicum, each including a pre- and post-conference with the practicum candidate. In some cases, additional observations will be requested by the Site Supervisor and the Field Supervisor.

Although the practicum candidate may request specific campus locations or Site Supervisors, the final placement decision will be made at the school district level and approved by the iSchool’s School Librarian Certificate Coordinator. Practicum candidates working outside their own school districts may wish to consider acquiring professional liability insurance.

It is also important to note that per 19 TAC 228.35(e)(8)(D) A practicum is successful when the field supervisor and the site supervisor recommend to the Educational Preparation Program that the candidate should be recommended for a standard certificate. If either the field supervisor or site supervisor does not recommend that the candidate should be recommended for a standard certificate, the person who does not recommend the candidate must provide documentation supporting the lack of recommendation to the candidate and either the field supervisor or site supervisor. **19 TAC 228.35(e)(8)(D)**

The requirements for School Librarian standard cert. are found in **19 TAC 239.60**.

Librarians of Record (on an Intern or Probationary Certificate)
Practicum candidates seeking Texas School Librarian Certification who are under current contract with a school district as "Librarian of Record" may fulfill the practicum requirement, including all 160 hours, at their own school library during their regular work hours, **documenting only those 160 hours that contribute directly to teaching and learning.** If the candidate is employed in a private school, that school must be accredited by TEA. The practicum candidate must be on an intern certificate or probationary certificate and enrolled in the required practicum course (INF 388R) with a certified school librarian employed by UT
Austin, serving as the practicum Field Supervisor and a certified school librarian serving as the Site Supervisor. The Field Supervisor will conduct the three 45-minute observations mandated by TEA for all practicum candidates seeking Texas School Librarian Certification. See the scenarios below for specific requirements for intern and probationary certificates.

It is important to note that if a candidate is on a semester-long practicum on an intern or probationary certificate, the expectation is that the candidate will be standard certified at the end of the semester or year. In the case of the intern certificate, that means that they must pass the certification exam for school librarians (150). In both, they must also have a master’s degree conferred and two creditable years of experience for the standard to issue.

The EPP can recommend an additional practicum under a probationary (P) certificate only. The reason is because a candidate is only allowed one intern certificate without a passed exam. They are allowed two Probationary certificate extensions. The reasons for the additional Probationary certificate are referenced in 19 TAC 228.35(e)(8)(C)(ii)(I-II).

The applicable Intern and Probationary certificate requirements for non-teachers are found in:
- Intern cert 19 TAC 230.36(e)(1-3)
- Probationary cert 19 TAC 230.37(e)(3) Effective September 1, 2017, to meet the subject matter requirements for issuance of the probationary certificate in a certification class other than classroom teacher, the individual must pass the appropriate content pedagogy examination(s) for that certificate.

**Practicum Content Requirements**

**Ongoing Requirements:**

*Skills instruction:* Teach at least six whole-group skills lessons (three at each school), preferably having collaborated with a classroom teacher and the school librarian. If no collaboration is possible, plan with the school librarian to teach skills lessons, such as research skills or bibliographic instruction, to classes when visiting the library. Consult with the site or field supervisor for ideas as needed. Complete lesson plans, using the iSchool's lesson plan template, are required. Submit the plans via email to the site supervisor, field supervisor, and program coordinator two days before you will deliver the instruction. Implement any changes that the supervisors or coordinator suggest. Read aloud/story time sessions do not count toward this requirement.

*Read aloud sessions:* Present at least 6 read aloud sessions while at the elementary school. Prepare lesson plans for each story time.

*Faculty professional development:* Plan, promote, and present one faculty professional development workshop at each library. This can be offered during lunch, before or after school, or during a grade level chair or department meeting. Plan a 15-20 minute session on a skill such as using Wakelet or Flipgrid, use of eBooks in the classroom, use of cartoon creators in the curriculum, etc. Consult with the school librarian for ideas and appropriate and desirable technology for the school.

*Lesson Plans:* Submit complete lesson plans for all interactions with classes, including story time/read aloud and skills instruction. Due two days prior to instruction. Email the lesson plans to the field supervisor, the site supervisor, and the program coordinator. Implement any changes that they suggest.

*Project:* With the school librarian, identify a project that you can work on throughout the semester and conclude by the last day of the practicum. This project should benefit the school library, such as creating a small maker space, weeding the science section and updating the science collection based on replacing weeded titles and supporting the TEKS, developing a series of book displays and activities to support various holidays or other topics.

*Log your hours and experiences:* You need to keep a log of your hours in the Google Drive provided by the Program Coordinator. The site supervisor and field supervisor will have access to this drive. Keep a journal of your daily experiences. This can be a bullet journal or a narrative.
Note: Practicum students who are on an intern or probationary certificate may only log hours that are in direct contact with teachers and students and directly affect teaching and learning. No program administrative work may be counted (such as webpage updating, ordering materials, processing or shelving books, etc). If you are unsure about what to log, contact your field supervisor or program coordinator.

Thank you for agreeing to help with the school library practicum this semester. We ask that, as a site supervisor, you be responsible for providing professional level experiences for students who are seeking the Standard School Librarian Certificate from the Texas State Board of Educator Certification (SBEC).

The school library practicum is a formal academic course that requires 160 hours of on-site work at two campuses—elementary and middle or high school. We ask that you provide activities that offer the student a wide array of experiences that enhance professional development. The site supervisor works in cooperation with a field supervisor who is employed by the School of Information at the University of Texas at Austin (iSchool). The School (iSchool) provides a manual with suggestions for learning activities and supervision.

In addition to day-to-day supervision, the site supervisor is expected to help in the final evaluation of the student. The evaluation is placed in the student’s permanent file. The student may or may not ask that it be provided to prospective employers. The faculty instructor for the course assigns the final grades (credit or no credit).

All students who participate in the school library practicum are post-baccalaureate students, and are enrolled in the Master’s program in Information Studies at the School of Information, or already hold a Master’s degree.

If you have not received the practicum manuals and other support materials, please let me know as soon as possible. I also would like to have your email address, as well as phone numbers, address of your school, and a work phone number where we can reach you if needed.
