Course Description
In preparation for a career as a UX professional, students need to gain experience working in a fast-paced, Agile methodology, as part of a cross-discipline team. This course will take students, assuming the roles of UX Researchers and UX Designers, through 7 sprints as they complete a full life-cycle project from conception to implementation. Class meetings will follow a Scrum, two-week, Sprint methodology with each Sprint having a kickoff, a check-in, and a presentation meeting.

The instructor will assume the role of both the client as well as the product/project manager to ensure things stay on schedule since we are constrained to the timeline of the semester.

Objectives
The student successfully completing this class will:
- gain experience applying their knowledge of both UX Research and UX Design in a industry-paced project
- complete a full life-cycle project from initial client concept to hi-fi mockups
- employ various methodologies, learned in previous courses, to get a more holistic view of when/how to best implement the various tools learned

Class Format
This course is a projects based course that applies knowledge already learned in previous courses. Therefore there is no official readings or lectures outside of the weekly team meetings and strategy sessions.

Grades
Grades will be based 100% on your participation and ability to contribute to the tasks necessary for the role you assume.

The course is completely team-based, so individual participation is critical to the success of everyone else on the team, as well as the project as a whole.

Misc
- Policy on Academic Integrity - Students who violate University rules on academic dishonesty are subject to disciplinary penalties, including the possibility of failure in the course and/or dismissal from the University. Since such dishonesty harms the individual, all students, and the integrity of the University, policies on academic dishonesty will be strictly enforced. For further information, please visit the Student Conduct and Academic Integrity website at: http://deanofstudents.utexas.edu/conduct.

- Any student with a documented disability (physical or cognitive) who requires academic accommodations should contact the Services for Students with Disabilities area of the Office of the Dean of Students at 471-6259 (voice) or 471-4641 (TTY for users who are deaf or hard of hearing) as soon as possible to request an official letter outlining authorized accommodations. Other awesome resources are available on their website: http://diversity.utexas.edu/disability/

Land Acknowledgment
(I) We would like to acknowledge that we are meeting on Indigenous land. Moreover, (I) We would like to acknowledge and pay our respects to the Carrizo & Comerudo, Coahuitcan, Caddo, Tonkawa, Comanche, Lipan Apache, Alabama-Coushatta, Kickapoo, Tigua Pueblo, and all the American Indian and Indigenous Peoples and communities who have been or have become a part of these lands and territories in Texas, here on Turtle Island.

Title IX reminder
Beginning January 1, 2020, Texas Senate Bill 212 requires all employees of Texas universities, including faculty, report any information to the Title IX Office regarding sexual harassment, sexual assault, dating violence and stalking that is disclosed to them. Texas law requires that all employees who witness or receive any information of this type (including, but not limited to, writing assignments, class discussions, or one-on-one conversations) must be reported. If you would like to speak with someone who can provide support or remedies without making an official report to the university, please email advocate@austin.utexas.edu. For more information about reporting options and resources, visit http://www.titleix.utexas.edu/, contact the Title IX Office via email at titleix@austin.utexas.edu, or call 512-471-0419.
Sharing of Course Materials is Prohibited:
No materials used in this class, including, but not limited to, lecture hand-outs, videos, assessments (quizzes, exams, papers, projects, homework assignments), in-class materials, review sheets, and additional problem sets, may be shared online or with anyone outside of the class unless you have my explicit, written permission. Unauthorized sharing of materials promotes cheating. It is a violation of the University's Student Honor Code and an act of academic dishonesty. I am well aware of the sites used for sharing materials, and any materials found online that are associated with you, or any suspected unauthorized sharing of materials, will be reported to Student Conduct and Academic Integrity in the Office of the Dean of Students. These reports can result in sanctions, including failure in the course.

Class Recordings:
Class recordings are reserved only for students in this class for educational purposes and are protected under FERPA. The recordings should not be shared outside the class in any form. Violation of this restriction by a student could lead to Student Misconduct proceedings.
