I. Course Description
Introduction to the issues and trends in digitization initiatives and management, including project planning and management, asset delivery and management systems, interoperability and the importance of standards, copyright and other legal issues, metadata basics, digital preservation, and specific digitization processes for documents, images, sound, and video. Three lecture hours a week for one semester.

II. Specific Learning Objectives
By the end of this course, you will:

- Learn a common language and conceptual framework that can connect the diverse areas of specialization within digitization, and express your ideas in class discussions and projects in ways that can be understood by other information professionals involved in digitization projects
- Understand the basic issues concerning whether to digitize a collection for preservation or for access including how digitized materials are digitized, accessed, and used within particular institutional and cultural contexts
- Examine how to design and implement effective work flows that consider the end user, leverage a cultural institution’s particular resources, and keep costs reasonable while also following prescribed standards for sustainability and preservation
- Demonstrate your ability to work with others and independently effectively and professionally by successfully completing the group and individual components of the final project as well as by successfully participating in small group and class discussions

III. Format and Procedures
This is a seminar-style course, so your attendance and participation in class are critical to your success in this course and to the success of the course as a whole. Make sure to complete all required readings prior to class, and to submit...
your discussion questions via Canvas by Monday at noon. You should come to class prepared to participate in small
group and class discussions. You will also work independently and in teams to complete a course project that
assesses the digitization needs of a particular collection. The project will combine individual accountability with
collaboration, as is common in most positions that you will hold as an information professional. You may use any
combination of literature review and/or empirical study to complete your projects. The success of this course will
depend on everyone’s preparation and willingness to share their ideas and opinions, which requires mutual
understanding and respect. You are welcome to express ideas that are different from your peers or the instructor, but
this should be done politely and professionally, and in a constructive manner.

1. Course Primary Materials
   A central component to this class is a hands-on introduction to digitization methods through digitizing
   collections at particular institutions. Some collections with which we’ll work:
   * Spalding Gray Papers at the Harry Ransom Center: The papers of author, monologist, and actor
     Spalding Gray are rich in the materials Gray used to develop his on-stage improvisational
     monologues and resulting literary works. Included are performance notebooks, journals, notes and
drafts for monologues, poetry, speeches, plays, and published and unpublished works, as well as a
small amount of correspondence.
   * WWI Texas Military Service Cards

2. Course Readings
   * All course readings are available on the course Canvas site at http://utexas.instructure.com
   * Please make sure to complete all readings before coming to class.
   * You will need to do additional reading to prepare for labs and projects. A sample list of additional
publications that may be useful for these activities is available on the Canvas site, although you
are also encouraged to seek out additional relevant readings

3. Use of Canvas in class
   To supplement our in-class discussions we will use Canvas to distribute course materials, to communicate
and collaborate online, to post grades, and to submit assignments. You can find Canvas support at the ITS
Help Desk at 475-9400, Monday through Friday, 8 a.m. to 6 p.m., so please plan accordingly.

IV. Tentative Course Schedule **This syllabus represents our current plans and objectives. As we go
through the semester, those plans may need to change to enhance the class learning opportunity. Such changes,
communicated clearly, are not unusual and should be expected.

CAP  
Lab: video peer assessment  

11/26  
Due: Completed Grant Proposal  

Week 14: 12/2  |  Grant Review Panel  
Grant Review Panel  

V. Course Requirements  
1. Class attendance and participation (10%)  
   a) Because the vast majority of the learning in this class will occur within the classroom, you are required to attend class regularly. Attendance will be taken during each class period. Absences will only be excused in situations following university policy (illness, religious holy days, participation in University activities at the request of university authorities, and compelling absences beyond your control) with proper documentation and timely notification (prior to class for non-emergencies). Excessive tardiness may be considered as an unexcused absence.  
   b) Class participation is not merely attendance, but rather factors in your overall contributions to the collaborative learning environment, based on both the quantity and quality of your interactions in all aspects of the course.  *Because hands-on projects are graded through assignments, this grade is based primarily on your participation in online and in-class discussions.* You are expected to participate in all aspects of class discussion INCLUDING reading the online discussion. Before class, examine your colleagues’ questions and be prepared to discuss them in class.  *You should come to class prepared to discuss the required readings, as well as your perspectives on these readings.* You should strive for balance in your contributions. Your participation will not be based on who speaks the loudest or the longest, but on consistent participation of significant quantity and, most importantly, quality.  
   c) Religious Holy DaysBy UT Austin policy, you must notify me of your pending absence at least fourteen days prior to the date of observance of a religious holy day. If you must miss a class, an examination, a work assignment, or a project in order to observe a religious holy day, I will give you an opportunity to complete the missed work within a reasonable time after the absence.
4. **Discussion (15%)**  
   a. **Questions (10%)**  
      **Goal:** Students will demonstrate a familiarity and/or an understanding of all the readings required for the week by posing questions and/or responses that provoke thoughtful class discussions.

      Except when indicated, there will be required readings each week. The required readings will be posted on Canvas, so there are no books to buy or papers to acquire for the class.

      Each week, you are expected to read the material carefully and post a response to the class discussion question or your own discussion questions in Canvas by noon the day before class meets. These questions should touch on a majority of the readings for full credit. You can post more than one. You can ask questions about confusing parts or respond to another person’s post (as long as it demonstrates that you have read the readings and you are contributing your own synthesis). Synthesis and synergy across readings are keys to successful questions. These questions should demonstrate that you have done the reading even if you don’t feel like you fully grasp the reading. They should stimulate thoughtful class discussion.

   b. **Discussion Leaders (5%)**  
      **Goal:** Students will practice presentation skills, manage class discussion, ask good questions, respond to questions, disagree with others, appraise research and theory, and develop confidence in his or her own judgment.

      Each student will serve as discussion leader for one class topic this semester. Your duties are important, but not extensive. You do not have to be the "expert" on the readings/authors. After a brief introduction, you will lead off with a question that you find compelling, make sure that all students’ voices are heard, and manage time to ensure we get through all the readings.

5. **Digitization Portfolio (50%)**  

   **Goal:** Students will demonstrate an ability to produce digital surrogates that meet provided standards and parameters.

   Your Digitization Portfolio will consist of the items you have digitized during the semester. All of these items except for the video need to be put into your sod_fall_2014 folder on the NAS, so we can access them for grading.

   It is our hope that many of these projects will lead to items you digitized having permanent URL’s on the Web. Many items digitized during past iterations of this course have become publicly accessible exemplars of our shared cultural record.

   **Audio** (5%)  
   **Audio Sync** (7.5%)  
   **Images** (10%)  
   **Mobile scanning** (7.5%)  
   **Text** (7.5%)  
   **OCR** (7.5%)  
   **Video/Film** (5%)  

6. **Final Project (25%)**  

   For the final project, you will write a grant proposal to obtain funds to digitize historical records. This proposal will be a response to the Digitizing Historical Records grant program sponsored by the National Historical Publications and Records Commission, a part of the National Archives and Records Administration (NARA). Your proposal will be based on the Digitizing Historical Records Grant Announcement.pdf, taking the form of a project narrative that conveys the ideas, objectives, and methods of your project based on what we have learned this semester. Your project will be graded on the same rubric as the NHPRC RD-ReviewForm.doc.

   The Final Grant Proposal should demonstrate:
the national significance of the collections or records series to be digitized;
• an effective workflow that repurposes existing descriptive material, rather than creating new metadata about the records;
• reasonable costs and standards for the project as well as sustainable preservation plans for the resulting digital records;
• well-designed plans that evaluate the use of the digitized materials and the effectiveness of the methods employed in digitizing and displaying the materials.

The final project is broken down into four assignments to help you develop a more rigorous proposal.
1. Grant Collection and Access Description (5%)
2. Plan of Work and Products (7.5%)
3. Final Proposal (7.5%)
4. Grant review panel (5%)

8. Late Assignment Policy

All assignments are due at noon on the day of the class meeting for the week, except as noted in the course schedule. All assignments must be submitted via Canvas. Late assignments will only be excused in situations following university policy (illness, religious holy days, etc.) with proper documentation and timely notification (prior to the deadline for non-emergencies). In all other cases, assignments received after the deadline will be penalized 10% per 24-hour period. If you turn in an assignment (without prior authorization or extreme emergency circumstances) even one minute late, you will have an automatic deduction of 10% prior to grading of the assignment; if you are five days late, even an otherwise perfect assignment will only receive half-credit; and if you are ten days late, your assignment will not be graded and will not receive any credit.

VI. Grading Procedures

Grades will be broken down as follows:
• Participation: 10%
• Digitization Portfolio: 50%
• Discussion: 15%
• Final Grant Project: 25%

We will use the following schedule in calculating final grades:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>95-100</td>
</tr>
<tr>
<td>A-</td>
<td>90-94</td>
</tr>
<tr>
<td>B</td>
<td>79-83</td>
</tr>
<tr>
<td>B-</td>
<td>74-78</td>
</tr>
<tr>
<td>C</td>
<td>60-68</td>
</tr>
<tr>
<td>C+</td>
<td>69-73</td>
</tr>
<tr>
<td>D</td>
<td>&lt;60</td>
</tr>
</tbody>
</table>

B+ 84-89  C+ 69-73
A+ 95-100  B 79-83  C 60-68
A-90-94  B-74-78  F <60

VII. Academic Integrity

University of Texas Honor Code
The core values of The University of Texas at Austin are learning, discovery, freedom, leadership, individual opportunity, and responsibility. Each member of the university is expected to uphold these values through integrity, honesty, trust, fairness, and respect toward peers and community.

Each student in this course is expected to abide by the University of Texas Honor Code. [See the UT Honor Code above.] Any work submitted by a student in this course for academic credit will be the student’s own work.

VIII. Other University Notices and Policies
Use of E-mail for Official Correspondence

• All students should become familiar with the University’s official e-mail student notification policy. It is the student’s responsibility to keep the University informed as to changes in his or her e-mail address. Students are expected to check e-mail on a frequent and regular basis in order to stay current with University-related communications, recognizing that certain communications may be time-critical. It is recommended that e-mail be checked daily, but at a minimum, twice per week. The complete text of this policy and instructions for updating your e-mail address are available at http://www.utexas.edu/its/help/utmail/1564.

Documented Disability Statement

Any student with a documented disability who requires academic accommodations should contact Services for Students with Disabilities (SSD) at (512) 471-6259 (voice) or 1-866-329-3986 (video phone). Faculty are not required to provide accommodations without an official accommodation letter from SSD.

- Please notify me as quickly as possible if the material being presented in class is not accessible (e.g., instructional videos need captioning, course packets are not readable for proper alternative text conversion, etc.).

- Please notify me as early in the semester as possible if disability-related accommodations for field trips are required. Advanced notice will permit the arrangement of accommodations on the given day (e.g., transportation, site accessibility, etc.).

- Contact Services for Students with Disabilities at 471-6259 (voice) or 1-866-329-3986 (video phone) or reference SSD’s website for more disability-related information: http://www.utexas.edu/diversity/ddce/ssd/for_cstudents.php

Behavior Concerns Advice Line (BCAL)

If you are worried about someone who is acting differently, you may use the Behavior Concerns Advice Line to discuss by phone your concerns about another individual’s behavior. This service is provided through a partnership among the Office of the Dean of Students, the Counseling and Mental Health Center (CMHC), the Employee Assistance Program (EAP), and The University of Texas Police Department (UTPD). Call 512-232-5050 or visit http://www.utexas.edu/safety/bcal.

Emergency Evacuation Policy

Occupants of buildings on the UT Austin campus are required to evacuate and assemble outside when a fire alarm is activated or an announcement is made. Please be aware of the following policies regarding evacuation:

- Familiarize yourself with all exit doors of the classroom and the building. Remember that the nearest exit door may not be the one you used when you entered the building.

- If you require assistance to evacuate, inform me in writing during the first week of class.

- In the event of an evacuation, follow my instructions or those of class instructors.

Do not re-enter a building unless you’re given instructions by the Austin Fire Department, the UT Austin Police Department, or the Fire Prevention Services office.
