

# Academic Success in the Digital University

## I 302

This is an online course. There are no required texts - all required media will be in the course website.

### Instructor Info

Molly McGee, MSIS

Email: [mkmcgee@utexas.edu](mailto:mkmcgee@utexas.edu)  
Office hours: By appointment

### TA Info

Email: [ta\\_pool@ischool.utexas.edu](mailto:ta_pool@ischool.utexas.edu) (include "McGee I 302" in the subject line of your email)

Do NOT contact individual TAs through Canvas.

Both the instructor and the TAs will reply to student emails within 24 hours on weekdays and 48 hours on weekends, barring rare and extenuating circumstances. We recommend that you check your Canvas messages at least once a day.

### Course Website

Login to the course Canvas page at [canvas.utexas.edu](https://canvas.utexas.edu)

The syllabus for I 302 includes course goals and objectives, grading policies, and an overview of assessments. Any announcements made within Canvas (the course Learning Management System) during the semester regarding deadlines, assignments, or other course information should be considered to supersede this syllabus.

### COURSE DESCRIPTION

Academic Success in the Digital University (I 302) is a course intended to teach undergraduate students to navigate and use digital information resources, tools, and skills that students should use in order to excel in their studies at a modern "digital" university and to succeed in their personal and professional pursuits as university graduates.

The course will expose students to a wide variety of information and academic resources, tools, and skills, with a focus on the digital landscape of higher education.

Subjects include features of the primary learning management system used; communication and organizational tools; library resources; basic online research resources; and ethical and safety concerns in the digital environment.

### COURSE OBJECTIVES

The primary objective of the course is to help you develop four skills, which will prove valuable in other courses and your professional life in general.

You will learn to:

1. plan, organize, and collaborate with other students on projects using digital tools;
2. develop strategies for searching for and accessing information and services;
3. evaluate and analyze information;
4. create information ethically for specific outcomes.

#### What's in this syllabus?

Course Topics	<b>2</b>
Course Policies Q&A	<b>3</b>
What's my Grade?	<b>4</b>
Course Schedule	<b>5</b>

# COURSE TOPICS

**START HERE!**

**1-2**

The first two modules will cover the syllabus and a few tools and resources you'll need to navigate the digital university.

Introduction to the Course and Resources for the Digital Student

**6**

Next we'll look at citation styles and academic honesty to make sure you understand how NOT to plagiarize in your classes!

Academic Honesty and Copyright

**8-9**

In these modules, we'll look at the history of the internet and web and look at new digital innovations as well as their impacts.

The Internet and the Digital Revolution

**12-13**

Next you'll learn about security and privacy challenges on the internet, including online privacy and cyberattacks.

Information Security and Privacy Basics

**3-5**

Next we'll discuss library resources and learn some strategies for research and evaluating information.

Research Strategies and Evaluating Sources

**7**

The next module will give you some strategies for structuring, writing, and editing essays and presentations.

Presenting Information

**10-11**

Does web design scare you? Don't worry! You'll learn enough about HTML and coding languages to become dangerous, and have the option to take an easier path when creating your portfolio website.

Basic Website Design and Usability

**14**

We'll finish by looking at what it means to be a digital citizen, and what kinds of ethical quandries you may encounter in the digital world, both at UT and beyond.

Digital Citizenship and Information Ethics

**FINISHED!!!**

# HOW TO SUCCEED IN THIS CLASS

**Be aware that** online courses require a higher level of self-motivation and self-pacing than most classroom-based course.

**Monitor all of** your communications through Canvas and through email at least once a day in order to keep up with the course.

**Organize your** time so that you can spend at least 12 hours a week working on this class.

**Take note that** there are strict deadlines for all assignments that you will be held responsible for meeting.

**Participate** civilly and ethically with your classmates in discussions and with your groupmates in projects.

## COURSE POLICIES Q&A

What's the best way to contact my instructor?

Send a Canvas Inbox message to your instructor first, and if you don't hear back within a day, email them at the address provided. **DO NOT** send Canvas messages to TAs - if you have a question for them, email [ta\\_pool@ischool.utexas.edu](mailto:ta_pool@ischool.utexas.edu).

Do I have to attend any class sessions? What does attendance look like in an online class?

You're in luck! We do not have any regularly scheduled meetings - but we do have **strict deadlines** for all of the assignments in this course that you must plan carefully for. Submit your assignments ahead of the deadline in order to avoid any schedule conflicts.

Also, since the class is entirely online, you are required to check your email and Canvas Inbox at least once a day (during weekdays) for this course. You may also be required to meet online with the instructor or groupmates for live chats, but you will have a say in when those meetings are.

What happens if I turn in an assignment late?

Late quiz and discussion assignments **will not** be accepted for any credit, except in cases of serious, multi-day (well documented) illness or emergency. You will **receive a zero** if you do not submit these assignments on time. Late submissions are accepted for individual and group projects - you can refer to the Canvas syllabus for more information.

Please note - we use the Canvas upload time as the official time of submission. If you submit your assignment even one second after the recorded deadline, Canvas will mark your assignment as late and you will receive a zero for that assignment.

How will you grade group projects?

One of the goals of this course is to help you learn how to collaborate effectively online. You'll be graded on your contributions and interactions with the group as well as the products you deliver. If you don't contribute to your group's project, you will receive **zero points** for the assignment.

What if I need an accommodation because of a disability?

The University of Texas at Austin will provide appropriate academic accommodations for qualified students with disabilities. To determine if you qualify, please contact the Dean of Students at 471-6259; 471-4641 TTY. If they certify your needs, we will happily work with you to make appropriate arrangements. Be sure to let both your instructor and the TAs know about any certified special needs that you may have.

What is the course policy regarding plagiarism and academic honesty? Can I use Wikipedia?

All work that you submit must be your own. Any plagiarism such as copying and pasting from Wikipedia or presenting another student's work as your own, will result in no credit for the assignment, course failure, and/or referral for disciplinary action. Ask for help if you are unsure at any point about what might constitute plagiarism.

# WHAT'S MY GRADE?

Your course grade will be based on a 300-point scale, with the following point breakdown for each of the tests and assignments in the course. All assignments are always due at 11:59 p.m. on the due date. Attendance is not used to determine the final course grade.

**Confused about a grade you received?** Message or email your instructor within 48 hours of the grade's release and explain your reasoning / ask for more information.

Assignment	Percentage of Final Grade	Max Points	Details
Quizzes	12%	35	Each quiz is worth 2.5 points - one per module. Quizzes are open book - you can refer back to readings when you take the quiz.
Discussions	12%	35	Each discussion is worth 7 points (initial post due Fridays, replies due Sundays). You must participate throughout the week.
Activities	16%	50	Schedule planner - 5pts Research activity - 10 Library treasure hunt - 10pts Evaluating sources - 10pts Plagiarism activity - 5pts HTML activity - 10pts
Group assignment	15%	45	You will be graded on your contributions, communication, and demonstrated respect and consideration for your teammates. You will be given the chance to evaluate your teammates' performances.  Group project plan - 15 pts Group project: Wiki - 30pts
Individual assignments	45%	135	You will also be given the opportunity to demonstrate your understanding of knowledge learned in the course through individual projects - both written and video.  Research Proposal - 45pts Video Presentation - 45pts Portfolio Website - 30pts Reflect on your class experience - 15pts
<b>Total</b>	<b>100%</b>	<b>300</b>	

## GRADING SCALE (POINTS)

278 – 300 points: A	218 – 227 points: C
269 – 277 points: A –	209 – 217 points: C –
260 – 268 points: B +	201 – 208 points: D +
249 – 259 points: B	189 – 200 points: D
239 – 248 points: B –	179 – 188 points: D –
228 – 238 points: C +	0 – 178 points: F
